Exo Plus:

Exo Elite:

DPI Settings

1. Enable/Disable the DPI Level.
2. Enable to set individual Horizontal and Vertical DPI.
3. DPI Level Color (Scroll Wheel LED)
4. Increase/Decrease DPI

Recording & Assigning Macros

1. Click "Macro Editor".
2. Click "New macro" and input a name for your macro.
3. Adjust the settings for your macro (Automatic insert delay, Cycle until key released etc.).
4. Once ready to record, press "Start record" and carry out the actions for your macro. Once done, press "Stop record". You may insert unrecordable actions such as Mouse clicks by pressing "Insert event".
5. Macros save automatically. You may close the window once done.
6. To assign a macro to a button, click on the button function, click "Macro", and select the macro you want to assign. Click "Apply" to save settings.
